

# TWA ConneXions

Connections Matter! Science tells us that relationships have the power to shape our brains. They help us learn better, work better, think better.

TWA ConneXions is an easy way to connect with highly influential people throughout Xerox that you wouldn't otherwise be able to easily talk to or find.

It is all about establishing connections—for professional advice, career growth or even organizational awareness.

TWA will make the initial introduction, enabling you to start a conversation!  
One connection can change an outcome!
